

The match is two days away, but tonight breaks from the plan: full speed and full rest, not an easy night.

ON THE GROUND

- 12 cones, six lanes extended to 30 metres
- Start cones staggered: left cone 3m up, each cone to the right 0.5m back
- 6 footballs

1 minute setup. Set it up before the first group arrives and leave it for all three.

Six lanes 30 metres long, start cones staggered for passing down the line

1 to 6 Movement: out and back with hand swap

- Six lanes, four boys to a lane, one ball at the front of each lane.
- Run to the 15 metre mark and back flat out.
- Keep changing the ball from one hand to the other continuously while sprinting.
- Pass the ball to the next boy in line and rest at the start while the other three go.
- Four goes each. Flat out out and back, then relax in line until his next turn.

6 to 11 Challenge game: full pace line pass

- Move the start cone 3 metres up on the left lane, and each cone to the right 0.5 metres back.
- Waves of six across the lanes, with a single ball starting on the far left.
- Sprint flat out over the full 30 metres at top speed.
- Throw the ball across from left to right down the angled line on the run.
- Nobody slows down to pass or catch. Run through the finish cones, then walk back slowly.
- Five or six waves. Full rest on the walk back before going again.

Coach one thing: Staying at full pace while handling the ball. Do not slow down to pass.

- Slowing to a jog to swap hands or make the pass. The feet stay at full speed.
- The pace goes up tonight, out of its usual place. Watch for tired legs going into Saturday.

Lashing rain. Shorten the sprint if the grass is greasy. Full speed needs good footing.
