

New theme, and nothing gets jumped over tonight. The hurdles stay in the bag until the landing is quiet on the spot.

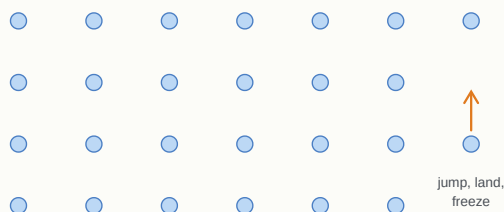

ON THE GROUND

- 4 corner cones
- 25 discs, one per boy
- Hands free. Hurdles stay in the bag

1 minute setup. Set it up before the first group arrives and leave it for all three.

No lanes, a disc each

an arm's length apart, and nobody moves off his own disc

No lanes tonight, a disc for every boy and nothing to jump over

1 to 6 Movement: jump and land on the spot

- A disc each, and nothing to jump over. Two feet to two feet, straight up and straight down.
- 1. "Bend, swing your arms, jump."
- 2. "Land on the front of your feet, then let your heels down."
- 3. "Bend your knees as you land and keep them apart."
- 4. "Freeze. Two seconds. No noise."
- Ten jumps, then ten more with you walking round listening.
- Then ten with the freeze held for two seconds. Nudge a shoulder, and a boy who wobbles was not holding it.

6 to 11 Challenge game: the quietest group

- Split them into three groups of eight. One group jumps, the other two turn their backs and listen.
- Ten jumps together. The listeners say how many they heard.
- Six rounds, so every group jumps twice. The listeners are strict, which is the point.

Coach one thing: If you can hear him land, he is landing badly.

- Straight legs on landing. He must bend to be quiet, so quiet does the coaching for you.
- Knees falling in as he lands. It is the same fault you saw in the stopping theme.

Lashing rain. No change. Nothing tonight goes on the ground and nobody jumps over anything.
