Body shape The sit

Next match Football, Saturday 29 August

Match in two days. Same two starts, faster, and nothing new.

ON THE GROUND

- 12 cones, six lanes, 15 metres
- 25 discs beside the lanes
- A ball each

Set it up before the first group arrives and leave it for all three.

Six lanes 15 metres long, a cone at each end, and a disc for every boy

0 to 2 Wake up game: beat the bib

- They jog in the grid. You hold a bib up where they can all see it.
- Throw it. Every boy sprints to get a hand to it first, then jogs again.
- Six or seven throws, and throw it in a different direction every time.

2 to 8 Movement: two starts, with a ball

- The same standing start and rolling start as Tuesday, ball in hand.
- Four waves of each at match pace. No teaching and no stopping a boy in the lane.
- Let them run. Tonight is for using it, not fixing it.

8 to 13 Body shape: the sit

- A disc each. Ten slow sits, five seconds held at the bottom of each.
- Then walk round while they hold and try to make them laugh. If a boy wobbles, he was not really holding it.
- Say the four lines again for anyone who missed Tuesday.

13 to 17 Finish: no challenge game

- There is a match on Saturday, so this is where the night stops.
- Walk them in. Ask three boys to name the shape and to show it.
- Hand them to the next station on time.

Coach one thing: Nothing. Watch them and let them run.

- A boy whose start falls apart the moment the ball is in his hands. That is normal at this age.

Lashing rain. No change. Nothing tonight goes on the ground.
