

*Last night of the theme, a match in two days, and the big step gets checked.*

### ON THE GROUND

- 12 cones, six lanes, 15 metres
- 25 discs beside the lanes
- A hurl each, 12 bibs

Set it up before the first group arrives and leave it for all three.

Six lanes 15 metres long, a cone at each end, and a disc for every boy

### 0 to 2 Wake up game: tails

- Twelve boys tuck a bib into the back of their shorts so most of it hangs out. The rest have no tail.
- The boys without a tail chase and try to take one. A boy who takes a tail wears it.
- A boy who loses his tail does five big steps, then goes hunting for another. Swap nobody, it sorts itself out. Two minutes.

### 2 to 9 Movement: four sprints with a hurl

- Four waves of six over 15 metres with a hurl, at whatever pace they like.
- Full rest between. Walk back, breathe, go again.
- Stand at the finish line and watch the arms. Say nothing.

### 9 to 15 Body shape: the big step, checked

- They should drop into it without a demonstration. Find out whether they can.
- Say only "big step, left leg" and count to five. Then the right.
- Five each leg. Then ask one boy to show the group and to say what to watch for.

### 15 to 17 Finish: name the shape

- Walk them in.
- Ask three boys: "What is the shape called, and what falls in if you do it badly?"
- Tell them the theme changes on Tuesday and it is stopping.

### Coach one thing: Nothing. Find out who knows the shape.

- Any boy whose front knee still falls in. Note his name for the stopping theme, because it is the same fault.

**Lashing rain.** No change.
